

THE BUZZ

FINAL
EDITION

WEEK WITHOUT ALLS

2022-23

Pre primary visited the following places during their WWW:

- Raudat Tahera
- Rani Baug
- Bird Sanctuary
- Tic Tac Tot

Students were blessed by the ziyarat trip followed by the visit to the zoo. They were thrilled to see the different wild animals. The main attraction was the penguin section at the zoo. Students enjoyed the bird watching the next day. They had a blast in Tic Tac Tot.

MS. TASNIM CUTLERIWALA

Grade 1, my students enjoyed a lot at Tic Tac Tot. It was a long journey for them. They also visited a bird sanctuary where they really had fun watching the birds.

MS. MUNIRA SETHWALA

Students visited Tic Tac Tot, Essel World Bird Sanctuary, and they also had a sleepover in school for their WWW. Through this we got an opportunity to bond with the children in an informal way. It was great to see children helping each other in their own sweet little ways and trying to do their chores on their own.

MS. ZENAB PACHORAWALA

The WWW trip was really fun. We had 2 things planned for Grade 2, one was an overnight in school and other where we had taken our children to a bird sanctuary and a park which had indoor activities. The best part I liked is the bonding time the children had during the sleepover.

MS. LUBAINA ARSIWALA

We went to a place called Tic Tac Tot where the children enjoyed thoroughly, it was like a play pen with different activities. The bird sanctuary visit was quite informative, our children still remember what they learnt there. The tent experience this time was fun. My favourite part of this WWW would be, when the children by mistake call me their mum, or when they tell me "you give the best hugs aunty", it just makes my day!

MS. FATEMA TAWAWALA

We went to Kamshet with our Grade 3 class.
It was a wonderful experience, children enjoyed
all the activities to the fullest.
We saw them managing things independently,
taking responsibilities, and playing
leadership roles.
At times when we were sitting together for
lunch or dinner we got an opportunity to hear
their hearts out.
It was amazing to create bonds with children
during this trip.

***MS. ZAHRA JAWRAWALA &
MS. MASUMA DAHODWALA***

The WWW to Kamshet with Grade 4 was an very exciting trip. I really enjoyed it.

It's very hard to pick one moment because I've had so many moments with my kids, but the one which I'd put my finger on would be the zip lining. I did it for the first time, although I was really scared I thoroughly enjoyed it.

MS. UMMEHANI HAKIM

I went with Grade 5 to Kamshet and we were hoping to live in a tent but that wasn't the case. When we reached there we were told that because my kids were so much younger, we had the luxury of living in a dorm like room. We had bunk beds and we had the washrooms inside. So that was a big relief and I was very happy about it. Besides that, a memory I'll always cherish is when children were playing catch the ball which is one of the high intensity running games, then they'd insist that I play with them and tell us how much it would mean to them. When I started playing I became a kid myself.

MS. TASNEEM KAGALWALA

My class, Grade 6, had gone to Mulshi. My most memorable moment was when one of my students couldn't do the climbing activity as it was very difficult, but all my students started cheering for him. It was a sight to behold because everybody was motivating him and when he finally completed the activity all of them clapped and appreciated him.

Seeing this made me super happy!

MS. FARIDA MUN

I went with my class, Grade 7, to Hyderabad this year for WWW in the month of November.

I thoroughly enjoyed the trip with the kids, from the train journey to visiting all the historical places. It was a memorable trip, we had so much fun while learning the history. We also enjoyed our visit to the snow world, and the haunted house was super funny instead of scary.

I can't pick any one memory as my favourite since I cherish each one equally.

MS. SOFIA ROSHAN

As a class teacher, I had the opportunity to travel with the Grade 8 students to the Himalayan trek. We stayed in Dharamkot and travelled to Triund after which we then went to the snow line.

The experience was amazing. I already had a good bond with the students as I taught them last year and have been their class teacher this year. But this trip just strengthened it more. We shared the next few days together and got to learn more about each other outside the classroom setup. We were able to test our own physical abilities as we did the trek. Everyone got an insight about their own self.

One memory that I will cherish forever is the informal conversations I had with my students.

MR. ABHISHEK JIRE

**For WWW I accompanied Grade 9
to Karbala & Najaf.**

**The trip was something that I had never
ever expected.**

**The most memorable moments of the trip was
the Treasure Hunt that the Grade 9
participated in. The activities were related to
Imam Husain and they had to earn brownie
points by doing certain tasks, eg: zaeef ne room
tak pochavu, khidmat guzaar ne hadiyo aapvu.
At the end each team got a winning amount.
Seeing their smiling faces was a treat. I hope
and pray every one gets a chance once to visit
this place atleast once.**

MS. INSIYAH TAMBAWALA

I accompanied Grade 10 this year for WWW. I thoroughly enjoyed the train journey to Pathankot, especially the stories that they had to share about themselves which reminded me of my college days. On the himalayas my most cherishable moment is the time we spent eating maggi and trekking.

ANNUAL HOUSE CUPS!

Academic events in the school play a vital role and how they can help foster a sense of community and belonging amongst students. As you know, academic events are an integral part of school life, and they play a crucial role in shaping your academic and personal growth.

Academic events such as debates, quizzes, science fairs, and sports competitions not only provide an opportunity to showcase talent and knowledge but also help learn and grow as a team. Participating in these events helps develop crucial skills like teamwork, leadership, communication, and critical thinking.

Additionally, academic events provide a platform to interact with peers and teachers beyond the classroom setting. This interaction helps build a sense of community and belonging, which is essential for overall well-being and happiness. It helps create a positive school culture where everyone feels valued and appreciated.

As an example, we announced our 'Annual House Cup' on Republic Day to culminate the various academic and sports events that students participated in their houses. It was heartwarming to see how the students from each house came together to support and encourage each other. The energy and enthusiasm was infectious, and they created a positive atmosphere.

We would also like to congratulate the Green House for winning this year's 'Academic House Cup' led by Hatim Motiwala-Green House Captain and Fatema Dohadwala-Green House - Vice Captain. Your hard work, dedication, and teamwork has paid off, and we are proud of you. Your victory is a testament to the importance of academic events in school and how they can bring people together!

In conclusion, academic events play a crucial role in personal growth. They provide an opportunity to showcase talent, learn & grow as a team, and build a sense of community and belonging.

MS. INSIYAH TAMBAWALA

HERE WE ARE AT THE END OF THIS YEAR'S NEWSLETTER,
LOOKING FORWARD TO SEE YOU NEXT ACADEMIC YEAR.
HOPE YOU'VE ENJOYED READING!
